

Waveney Ramblers Guia de Isora 0 Guia de Isora Rural Rambles

OS Map: Track: [GPX for SatNav](#) Various Miles Updated: 2020-01-09

The earlier walks in this collection descend on tarmac instead of the rocky paths. This is to save wear and tear on knees accustomed to walking on flat terrain. The later walks are harder. There are three respite walks, 100% on tarmac lanes if your knees need some recovery time. And some variety is good too. Many walks are circular starting from Guia de Isora. The rest use a bus to head out and the walk returns to Guia de Isora.

For residents near Los Gigantes, walks 4, 8, 10, 17 and 23 could be reversed and walks 14 and 19 could be modified. Get a bus up to Guia de Isora, Tamiamo, Santiago del Teide or Valle de Arriba and walk back to the resort. These walks would be mostly downhill with superb views of the coast. Combine walks 14 and 8 for the greatest variety with lava flows, pine woods, galerias (water mines) and lowland farms and banana plantations. Walks 19 and 17 could be combined. Use bus routes 325, 462, 493 and 494.

You'd need a 3 or 4 week visit to do all these walks. For a shorter trip some walks stand out. Walks 13, 14 and 17 are particularly good if you are fit enough. Walk 23 was not so good, on lanes with a bit too much traffic.

- 1 2.0 miles. Walk around the town on roads with 100 metres of ascent and descent.
- 2 2.5 or 4 miles. Walk to Aripe and Chirche with a 200 or 300 metres climb on rocky paths. Descend on tarmac.
