

# Waveney Ramblers Sandlings Walks 0 Sandlings Walk - 13 Circular Routes

OS Map: Track: [TM 39193 57625](#) [GPX for SatNav](#) 60 / 120 Miles Updated: 2018

The Sandlings Walk starts from Kesgrave (Ipswich) and heads north and east to Southwold.

This guide splits the route into thirteen circular walks. The waymarked Sandlings route is about 60 miles long. These circular routes total 123 miles. The Suffolk Sandlings are areas of heathland with poor sandy soil. This habitat has become rare and valuable. Much of the terrain has been converted to arable farm land or forest plantations. The walk is well signposted. Look out for sculptures at intervals along the route. The habitats are very diverse and there are some fine views. As well as forest, heath and arable crops, expect pig farms and huge areas of mown lawn, some of which have been harvested for rolls of turf. Clay clogged boots are unlikely in this sandy terrain.

## GPX and KML DOWNLOADS

During November 2018, the entire walk was logged using a Garmin eTrex 20 hand-held GPS receiver. The downloadable track logs are quite accurate and generally better than similar offerings on-line that were created from maps without actually doing the walk! Several downloads copy each other and get the Kesgrave start/end point wrong.

## DISCLAIMER

Waveney Ramblers tries to stay on rights of way and keep safe. These maps are a "best effort" to document our routes but there may be errors, especially if paths have not been reinstated or signposted. Local conditions change from day to day and with the weather and seasons. Paths get diverted or closed. A safe walk today could become unsafe tomorrow. So please rely on your own common sense. Use these guides as a starting point and not as Biblical authority. As always the main danger is road traffic. Railway crossings are safe by comparison.
