DISCLAIMER: Waveney Ramblers tries to stay on rights of way and keep safe. These maps are a "best effort" to document our routes but there may be errors, especially if paths have not been reinstated or signposted. Local conditions change from day to day and with the weather and seasons. Paths get diverted or closed. A safe walk today could become unsafe tomorrow. So please rely on your own common sense. Use these guides as a starting point and not as Biblical authority. As always the main danger is road traffic. Railway crossings are safe by comparison. On the coastal legs, beware of the wind and tides. First published, December 2020.
